**Subject:** UCSF PRA 107-020

Hello and good afternoon, Mr. Alexander. I hope your new year is off to a good start.

Attached hereto, please find further rolling production of documents regarding researcher collections. These documents are a reproduction of the original record with redactions. Redactions have been applied to patient medical record information pursuant to California Government Code section 6254(c). Redactions have been applied to the names of researchers and staff, as well as specific date and time of the collection pursuant to California Government Code sections 6254(k) and 6255. The names of researchers and staff and the specific time of the specimen collection do not shed any light on the work of the University, whereas the potential harm to UCSF employees could be quite great.

I estimate the next production on this request on or about Friday 1/28/22.

Separately, I hope to have the next production on request 021-091 later this week.
